

Medical check ups for Tuberculosis (TB)

For healthy and happy life.

Last year, 82 people with TB were reported in Atsugi shi, Ebinashi, Zama shi, Aikawa machi, and Kiyokawa mura. Among them, about 14.6% are people from other countries.

People with TB may have some or all of the following symptoms;

- cough continuing for more than 2 weeks.
- Loss of appetite and weight.
- Constant tiredness.
- Fevers (especially slight fevers)

If you have those symptoms, please visit a clinic or hospital for medical check ups for TB.
