Explore the Wonder of the Universe!

JAXA Sagamihara Campus
(The Space Science Exploration Exchange Building)

Explanation of
Tourist Attraction

The Space Science Exploration Exchange Building is JAXA Sagamihara Campus' observation facility. Here you can learn about the history of Japan's space science, the latest information on current ongoing missions, and more importantly, about future space science plans. Many things that can only be seen here, such as the asteroid probe, "Hayabusa" return capsule (actual capsule) and the actual robot used in the experience are exhibited.

selling point

There are days that an "Exhibit Explanation Tour" in which you can look around and enjoy the exhibits in the Space Science Exploration Exchange Building and those outdoor with a guide are offered. Please see the website for days and times these are offered.

7.5 hours

Nearby Sightseeing Spot

Sagami Odako Center

Sagami's Odako (Giant Kite) Festival is Sagami City's traditional event. Boasting the biggest in Japan, the hachikendako is approximately 14.5 meters on all sides and about 950 kg. From the logging of the bamboo to title lettering, all is done by hand.

Koinobori festival at the Sagami River

Wishing for the growth of children, many Koinobori are set to swim above the Sagami River that is endowed with nature. The sight of the approximately 1,200 colorful Koinoboris swimming in the sky is truly magnificent.
