Experience NISSAN DNA

## Nissan Heritage Collection

Explanation of  
Tourist Attraction

From the cars that have been produced so far, Nissan securely stores some which have led to the latest cars, those that brought technological innovation, those that played an active part in motor sports, epoch-making pieces in its history, etc. As valuable assets, they consider them as NISSAN DNA themselves.

The Nissan Heritage Collection here is a place where you can see the "garage" that holds hundreds of famous cars for public viewing. Unlike museums, visitors can witness the unique scenes of the garage, including vehicle transportation and maintenance work.

Nearby Sightseeing Spot

### Sunflower field of Zama

This sunflower field is the largest in the area, with 550,000 sunflowers that bloom all at once. Sunflower festivals are held at Kurihara and Zama venues from the end of July to mid August.

### Zama Yatoyama Park

It is a natural ecology observation park with a total area of about 30 hectares. You can observe the animals and plants of Satoyama, environmental conservation activities and some of the many events being held.
