Learn about cutting-edge robotics

# Shonan Robo Care Center

Explanation of Tourist Attraction

Japan is now a super-aged society and, as such, expectations are growing for services utilizing robots to assist and enhance the physical functions of the elderly and persons with disabilities in order to provide livelihood support and facilitate their participation in society, etc.

Shonan Robo Care Center is working to utilize robotics developed by CYBERDYNE in order to develop advanced business and implement the technology in society.

Nearby Sightseeing Spot

## Mitsubishi Minatomirai Industrial Museum

Six zones cover topics from aerospace to maritime science. Check out the fascinating displays, which include a hands-on Mitsubishi Regional Jet cockpit display, the Shinkai 6500 submersible, real rocket engines, and more. The facility also hosts a wide range of events including science shows and handicraft workshops.

## JAXA Sagamihara Campus

Tours of the satellite and rockets mockups are available. Research and development of the Hayabusa asteroid explorer was also conducted here.
