Explanation of Tourist Attraction

Sunset Falls is located at the Uchi River, a tributary to the Sakawa River, has a length of 23 m and a width of 5 m, and is a famous waterfall where baby Kintaro had his first bath. This name is derived from its beautiful view during the sunset and the fact the sun sets in the mouth of the waterfall in mid-January every year. Both the fresh green and autumn leaves are beautiful. During summer, a camping site is open and people gather to play in the water. On the first Sunday of July, A ceremony is held to pray for the safety of climbers and campers.
