## Miura Area

### Misaki Local Wholesale Market for Fishery Products

Seeing the overwhelmingly lively market gives you a better understanding of tuna fish.

The municipallrun market known as "Misaki Fish Market" was opened in 1922. The market deals in tuna fish caught in different parts of the world as a main product, but also deals in local shore fish. Visitors can observe the trading of tuna fish from the second floor, and those fish-tanks full of expensive fishes like red sea beam or left-eyed flounder, or an imposing array of huge tuna placed on the floor are a truly awesome view. Please enjoy your shopping experience at the direct sales shops in the vicinity.
