Hi, everyone. Today, I'd like to tell you about these two photos. The first photo is called "Elephants in the River." It was taken in India in 2010 by a Chinese photographer who traveled to many countries. This photo shows elephants taking a bath in the river. I really like this photo because the elephants look so happy in the river. The other photo is called "Their Beautiful Forest." It was taken in Australia by an American photographer. In this photo, you see a small koala with its mother on a tree in nature. They were saved from a forest fire in 2019. This photo was taken in their new home one year later. I think they feel safe there. When I look at these photos, I feel that rivers are important for elephants and forests are important for koalas, so let's try our best to protect the environment for animals. Thank you.
