

Request from the Public Health Center

Etiquette to Prevent From Coronavirus Infection

Avoid gathering as a crowd

Be careful of kissing, hugging and shaking hands! They are risky!

Refrain from speaking loudly

Have a party online

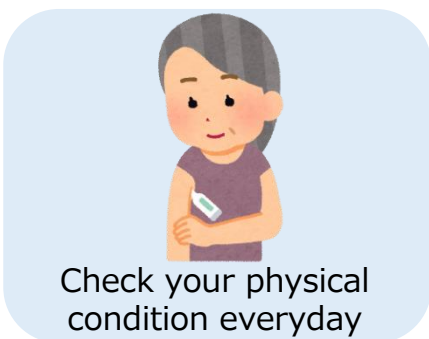

Ventilate your room with fresh air

Wear a mask

Wash your hands regularly

Check your physical condition everyday

Maintain sufficient social distance

When you test positive for coronavirus,

- ✓ Keep indoors! (Going out for work is not an excuse!)
- ✓ Avoid contact with other people.
- ✓ Stay where the Health Center designated, for a period of time.

When you are told you had contact with an infected person,

- ✓ Make sure to answer the phone from the Health Center.
- ✓ Cooperate to the epidemiological survey that Health Center conducts.
- ✓ Follow the instructions from the Health Center to take tests.
- ✓ Please refrain from any nonessential and non-urgent outings during the period that the Health Center designated. (Going out for work is not an excuse!)
- ✓ Avoid contact with other people.
